

Veterinary Medications

Your family pet, as well as exotic or zoo animals, often need special dosage, flavor and size-appropriate medications developed specifically for animals.

Our compounding pharmacists are experienced in working with veterinarians to create individualized treatments for your pet or animal including chewable treats, creams, ointments, lotions, oral suspensions, pastes and other preparations.

We can also customize the flavor of your pet's medication.

Convenient Delivery Options Available

You can pick up your pet's prescription at our pharmacy, or, if you prefer, we will deliver your pet's medications directly to your home, place of work, veterinarian's office or other location of your choice, via UPS, often at no extra cost to you. Same day courier service is also available.

For your convenience, we accept flexible payment plans, including MasterCard, Visa, Discover and American Express.

Please visit or call us if you have any questions or would like additional information about our pharmacy and our compounding services.

*We look forward to serving your
specialty pharmacy needs.*
